This program prepares adult learners to pass the 4-part, computer-based GED® exam to earn a State of Connecticut diploma. Students receive instruction in each of four subject areas – science, social studies, math and language arts – plus basic computer skills to take the exam.

Instructors will also review the official website, ged.com, where students can access related exam information and exam registration procedures.

To be able to register for the GED® exam, students must be at least 17 years old and officially withdrawn from school for 6 months. Seventeen year-olds must submit a withdrawal form with a parent or guardian signature.

Individuals who are 18 years of age may submit, in lieu of a withdrawal form, a letter from their last high school indicating that the class with which they entered ninth grade (or would have entered if never enrolled in high school) has already graduated.

Students can begin the GED® exam registration process online at www.ged.com and complete the process in person at Havemeyer building, 290 Greenwich Ave.

This course offers adults a relaxed environment in which to learn strategies to begin or expand a memoir. What better gift for the next generation than our stories for all to read!

America's Lesser-Known Presidents | *Mark D. Fichtel*

In the season when we will be going to the polls to elect the next President, this timely course offers a look back at the history of the Presidency in the 19th and early 20th centuries. The lectures assume that the great Presidents the country has had are relatively well-known, so they will be omitted in favor of 20 that most people know little about. The histories of these lesser-known Presidents may offer an interesting contrast with today's choices. Many of them served only one term, and more than a few came from modest backgrounds but served the country well, especially in the numerous wars of the 1800s. Though the rarity among these Presidents was truly outstanding in what he accomplished, some did better than might have been expected, some should have done better given their experience, some were truly inept, five died in office, and two were assassinated, but all of them lived (or died) colorfully.

Biblical Women in Western Art | *Mark D. Fichtel*

Women have played an outsized, but often forgotten, role in the Judeo-Christian Biblical tradition. These four lectures, richly illustrated with art from the 3rd through the 21st centuries, will tell the stories of women of the Old and New Testaments who were the instrument of their religion's founding or survival, matriarchs of their families, heroines of their people, or falsely accused of being immoral.

Though not in the Bible, in the early days of the new religion Christian women suffered for refusing to give up their faith, and their bravery and agonies will be told using vibrant artworks that have endured through the centuries.

In addition to the tales of the women who are the subject of these talks, there will also be comments on the paintings used to tell the stories, as well as brief, and often entertaining, biographical sketches of the artists who created them.

Chinese Painting and Calligraphy | *Sinrong Chen*

Chinese ink painting has existed for thousands of years and has undergone numerous changes throughout history. The Chinese brush pen is quintessential in the art of China. It is fantastic for creating different lines and brush strokes. This course will introduce different styles of Chinese painting as well as contrast the styles of Chinese art and western art. Students will combine traditional brush techniques with watercolor. The instructor will begin with a demonstration of the various skills needed to use the brush pen. Students will practice in the class as the instructor guides them through a variety of skills. During the class we will make projects using the Chinese brush pen, rice paper, watercolor, and watercolor paper. The student will be encouraged to use their new skills to express their own creativity.

The list of materials/supplies needed for the class will be sent to participants before class starts.

**Tai Chi** | Will Morrison

Curious? Learn how proper relaxation is a skill that leads to improved health, balance, agility and mindfulness. Tai Chi is the art of developing this skill through movement and internal focus. Harvard Medical School ranks Tai Chi as a "top five" exercise for any age group.

During the ten sessions of this class we will focus on movement segments and internal relaxation processes found within the classic Tai Chi choreography fluidly practiced in the public squares in China. Playing with the "Basic Moves" from the nationally recognized "Tai Chi Fundamentals" (taichihealth.org) program, "Studies" from different Masters, and early Tai Chi (Gigong) movement meditations will help make them easy to remember and practice at home.

Will is a senior student of Ed Young with whom he has studied since the early '80's. Will also teaches classes for Mr. Young and is a certified Tai Chi Fundamentals instructor. Find out more about Will at www.experiencetaichi.org. Mr. Young was a senior student and translator for Professor Cheng Man Ching. The Professor, as he is known, introduced the 37 posture Yang Style Tai Chi Form into New York in the 1960's and '70's that has become the most prevalent style worldwide.
